

About us

IMI Hydronic Engineering is the leading global provider and expert in hydronic distribution systems and room temperature control, with experience in more than 100,000 construction projects worldwide. IMI Hydronic Engineering helps clients optimise their HVAC (Heating, Ventilation and Air Conditioning) systems by providing products and knowledge to deliver the right indoor comfort at the right energy cost. IMI Hydronic Engineering brings together the expertise of 3 leading brands in hydronic distribution: IMI Pneumatex, IMI TA and IMI Heimeier. Building on its strong foundations, IMI Hydronic Engineering aims to be the most customer-focused, the most knowledgeable and the most innovative hydronic solutions company in the world. IMI Hydronic Engineering is part of the international engineering group IMI plc. IMI employs over 11,000 people and operates in more than 50 around the world. The company is listed on the London Stock Exchange and is a member of the FTSE200. Further information is available at www.imi-hydraulic.com.

Finance Controller with German 100%

 Füllinsdorf

Job Purpose

We are actively seeking an energetic and dynamic Controller to join our team. In this pivotal role, you will take charge of controlling operations and supply chain organizations, playing a key role in shaping our reporting and accounting processes. As a vital member of our team, you will bring enthusiasm and expertise to contribute to the overall success of our financial operations. This position offers a unique opportunity to be a central figure in driving excellence and efficiency in our financial management systems. Join us and be an integral part of our journey towards success!

Main Responsibilities

- Conduct value-added analysis to assess factory efficiency.
- Execute daily production control activities in the ERP system (JDE).
- Contribute to the month-end reporting process and provide explanations for variances compared to the budget.
- Play a key role in coordinating and facilitating forecasting activities.
- Participate in the yearly standard costing update.
- Assist the production manager in the CAPEX process.
- Ensure compliance with internal control systems by performing dedicated month-end closing activities.
- Identify and support process improvements and automation initiatives.

The Person

- Over 5 years of professional experience, with Big 4 experience considered a plus.
- Demonstrated ability to work under pressure, prioritize effectively, and meet deadlines.
- Excellent communication skills, fluency in both English and German.
- Results-oriented with a hands-on attitude.
- Strong team player with the ability to work in a cross-cultural environment.
- Familiarity with IFRS and Swiss GAAP.
- Advanced knowledge of Excel; familiarity with Power Pivot is advantageous.
- Knowledge of Cognos and JD-Edwards would be beneficial.
